Yotkom Hospital celebrates 10th Anniversary

Our Yotkom team are proud to celebrate the 10 year anniversary of the opening of our health facility in 2015. We have grown into a Hospital serving the Northern Uganda community and with a reputation for excellence. We continue to strive to improve access for the most vulnerable to our services by keeping fees low and providing additional compassionate assistance where possible.

Our health care team attend to over 25,000 out patients per year and also provide in hospital services for paediatrics. obstetrics, medicine, surgery and orthopaedics.

This year we have launched a Chronic Disease (â??For Life â??) Clinic to focus on closer monitoring of patients with conditions in the community like Diabetes and High Blood Pressure.

Linked to this in 2025 we have introduced the option of TeleHealth to improve access by rural communities to timely and convenient medical advice and intervention.

Thank you to all our generous donors, partners and supporters for sharing our vision and continuing to be part of the Yotkom Story.
